

iSpeed for CGO600 new edition *installation manual (CGO600 only)*

STEALTH INSTALL (UNDERNEATH THE CRANKSHAFT)

WARNING: Make sure your e-bike is turned off !

1. Place your e-bike upside down on a soft surface and remove the black cable cover
2. Locate the GREEN display connector in the frame. To find the right cable gently pull the display cable at the front and see which one moves at the bottom, gently pull it out to connect the iSpeed box
3. Install the iSpeed blackbox and route the cables (tight fit!)
4. Re-install the cable cover and enjoy!
