

# iSpeed for CG0800s 2025 installation manual

## STEALTH INSTALL (INSIDE THE FRAME)

---

**WARNING: Make sure your e-bike is turned off !**

1. Remove the bike battery with your key
2. Remove the battery lock plate (four bolts, pay attention to the different type for the top bolt)
3. Disconnect the display cable and pull it into the frame
4. Attach the iSpeed module to the display cable you just pulled

5. Push the other connector from the iSpeed module through the same hole and connect it to the display (make sure the iSpeed module is all the way inside the frame so the cable is long enough)
6. Roll up the extra cable length and push it up inside the frame
7. Re-install the battery lock plate
8. Re-install the battery and enjoy your upgraded Tenways e-bike
